

STORMWATER FUND

Description and Mission

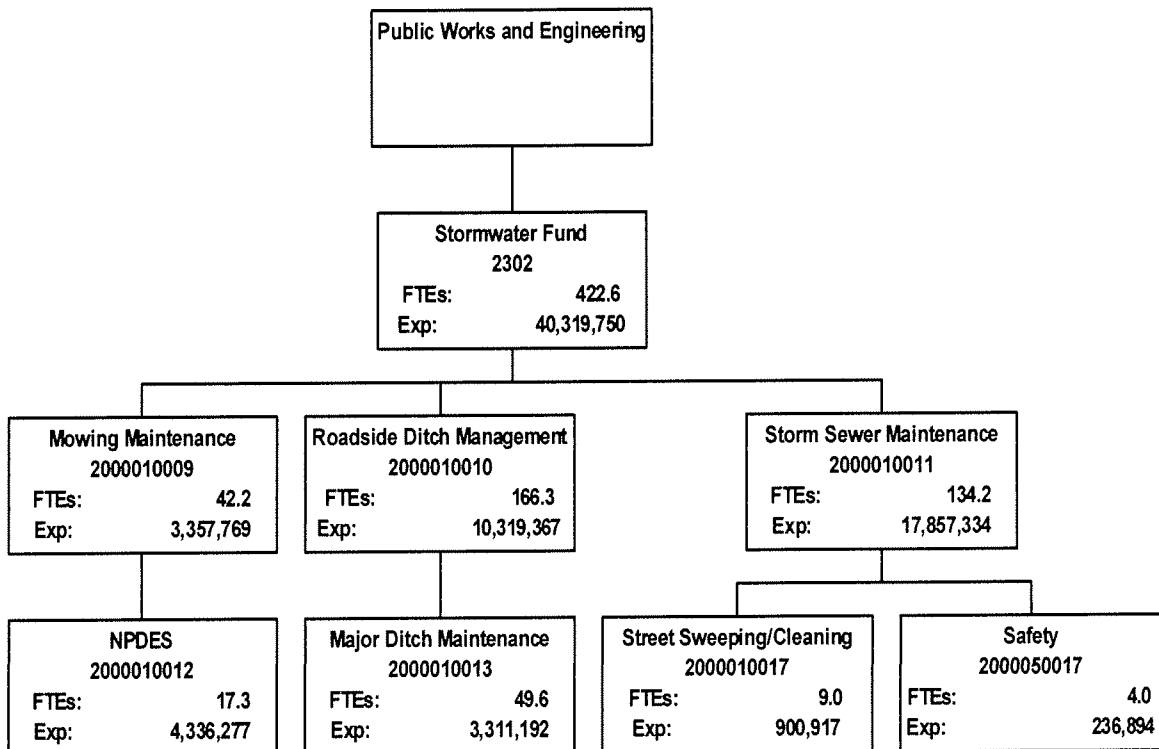

The Stormwater Fund is not technically an enterprise fund; however, it is closely associated with the Water and Sewer Fund, so it is grouped with the enterprise funds for clarity.

The City effected a major restructuring of its water, sewer and drainage financing at the end of FY2004. This restructuring created a new Combined Utility System with the capacity to transfer funds from its surplus amounts to the Stormwater Fund to support stormwater drainage operations and maintenance.

Additionally, the U.S. Environmental Protection Agency (EPA) issued the City a NPDES Stormwater Permit effective October 1, 1998. The permit requires the City to perform a variety of tasks to reduce pollution in the stormwater system during that five-year permit period. Although the permit has not been renewed, the City has received temporary extensions and continues to operate under the terms of the original permit. The City expects to receive a new permit sometime after the first of the calendar year.

The Stormwater Fund is organized under the Director of Public Works.

The above summarizes the FY2007 Budget, the FY2007 Estimate and the FY2008 Budget for the Stormwater Fund, formerly known as the Street and Drainage Maintenance Fund. Also included are the beginning and ending fund balances, total available resources and total expenditures. Approximately \$5.2 million will be spent on the City's National Pollutant Discharge Elimination System (NPDES) Program, \$29.2 million will be spent on the maintenance of the City's storm sewers and roadside ditches and \$5.8 million in Debt Service, which includes \$670 thousand for the interest on the pension obligation bonds and \$5.2 million for debt service payment on Capital Improvement bond funded storm sewer drainage projects.

The Stormwater Fund provides for the maintenance of rights-of-way and drainage infrastructure, such as storm sewers and roadside ditches. Additionally, the U.S. Environmental Protection Agency (EPA) issued the City a NPDES Stormwater Permit effective October 1, 1998. The permit requires the City to perform a variety of tasks to reduce pollution in the stormwater system during that five-year permit period. Although the permit has not been renewed, the City has received temporary extensions and continues to operate under the terms of the original permit. The City expects to receive a new permit sometime after the first of the calendar year.
